September 10, 2008

Dear Parents and Guardians,

We are pleased to announce that the Woodland Hills School District has chosen an online instruction program called SkillsTutor to provide all students with an innovative way to learn.

SkillsTutor is an Internet-based program that enables students to improve their skills in:

- Reading
- Language Arts
- Vocabulary
- Math
- Science
- Workforce Readiness Skills

How Can *SkillsTutor* Help My Child?

Your child's teachers have created an individualized menu of lessons specifically for your child. This interactive program provides audio/visual instruction and immediate feedback to help students learn and practice skills at their own pace.

The program: helps students bridge learning gaps in core subjects, enhances classroom instruction, prepares for standardized-tests, and can also provide enrichment activities for students who seek an extra challenge. Several lessons also have an optional Spanish voice-track to hear the audio version of the program.

Can We Use *SkillsTutor* at Home?

SkillsTutor can be accessed from any computer that has Internet connectivity, so the program may be accessed from a computer at home, in a library, community center, etc.

Your child will be using *SkillsTutor* in school, but may also access the program outside of school. You may log in to view their assignments or see their progress.

How Can I Learn More about *SkillsTutor*?

You can learn more about the program by visiting the WHSD Parent Resource Center or talking to your child's teacher(s).

Again, we are very pleased to offer this innovative resource to our students and encourage you and your child to take advantage of the program.

Sincerely,

Norman M. Catalano
